EAF/8 meeting

## Electronic Application Form Project\_Version 2 (PV2)

Document EAF/8/2  
"Developments concerning the prototype electronic form project"

Geneva  
October 24, 2016

1

## AGENDA

- Background
- Developments since EAF/7 (March 2016)
- Presentation and validation of the prototype
- Other matters for consideration
  - Addition of new crops
  - Financial Administrative Regulations and Rules
  - Official variety list
- Next steps
  - Participation in the launch of EAF
  - Tentative Timeline
- EAF Name

2

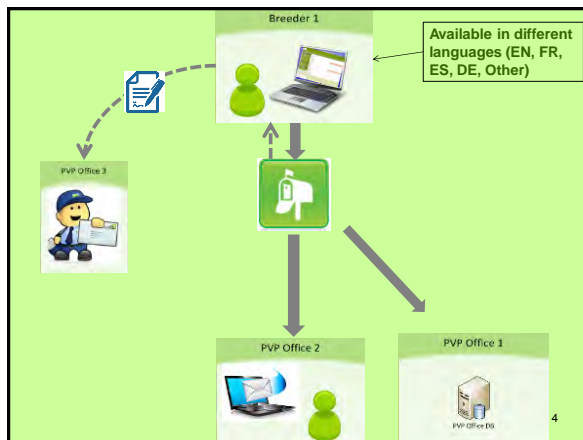

## Background

The original description of the **aim of the project** on a prototype electronic form was to develop a **multilingual, electronic form** containing questions relevant for plant breeders' rights (PBRs) applications.

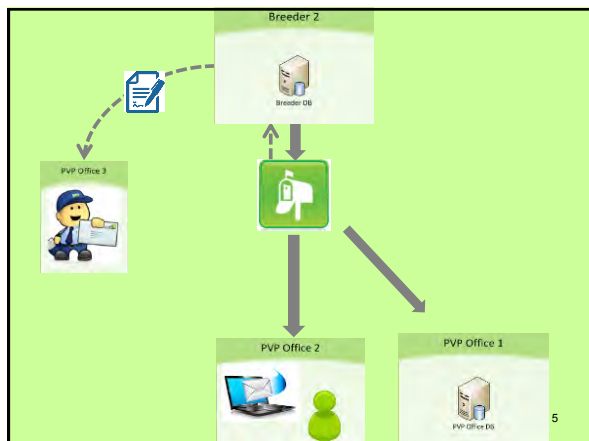

The aim of the prototype would be to develop an **electronic form** covering all relevant information required for a PBR application (including **Technical Questionnaire**) in the members of the Union concerned and with questions translated in the relevant languages for the members of the Union concerned.

(see document CAJ/66/5 "Electronic Application Systems", paragraph 2).

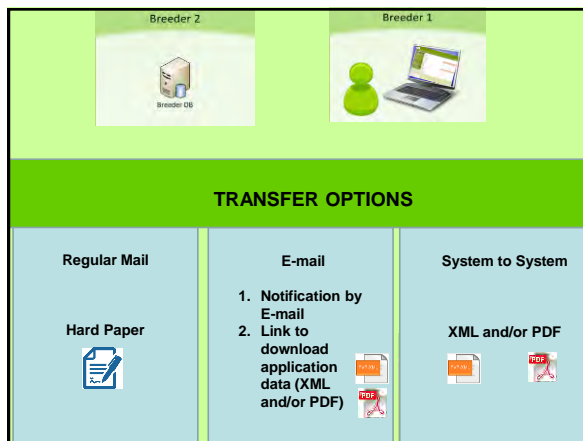

3

4

5

## Benefits of the EAF system

1. Multilingual system: possibility to read all questions in all languages of participating members
2. Provide and electronic PVP system for participating members who don't have one
3. Facilitate exchange of data in a standard format (PVP-XML)
4. Offer the possibility to reuse existing application data
