1 About this guide

This guide, which is intended for users of UPOV PRISMA, is divided into three parts:

Part 1 - WIPO ACCOUNTS: explains how to create and manage online user accounts;

Part 2 - UPOV PRISMA - Assigning and Managing Access Rights;

Part 3 – UPOV PRISMA - Overview of Features and Functionalities.

2 Acronyms

IRN	International Reference Number		
CPVO	Community Plant Variety Office of the European Union (CPVO)		
PBR	Plant Breeders' Rights		
PVP	Plant Variety Protection		

Reference in this guide to the term "PBR authority" (i.e. authority entrusted with the task of granting breeders' rights) should be understood as also covering the term "PVP Office".

3 Overview

UPOV PRISMA is a tool to transfer application data from breeders to the selected PBR authorities of UPOV members.

The list of participating authorities and crops and species covered is available on-line: http://www.upov.int/upovprisma/en/index.html

Navigation languages can be selected in the header:

The supported browsers for WIPO Accounts and UPOV PRISMA are:

- Mozilla Firefox
- Internet Explorer
- Google Chrome

In order to use UPOV PRISMA, the agent should:

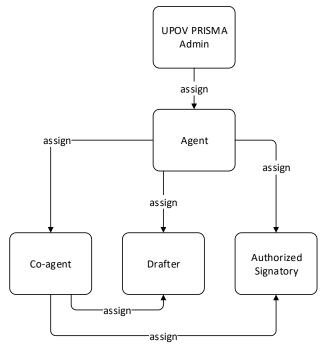

- 1. Create a WIPO Account (§4)
- 2. Request a role assignment (§5)

At UPOV PRISMA web application level, four roles are identified for agents:

- Agent: has the ability to Start a new application, Copy application, View, Edit, Delete, Sign, and Submit his PBR application data using the Web application tool. The Agent role is assigned by UPOV PRISMA administrator. The agent can create and assign the role of drafter, authorized signatory and co-agent role.
- Co-agent: has the ability to start a new application, View, Edit, Delete, Sign, Submit and Copy PBR application data using the Web application tool. The co-agent can create and assign the role of drafter and authorized signatory.

- Drafter: has the ability to start a new application, Edit, Delete, View and Copy PBR application data using the Web application tool.
- Authorized signatory: has the ability View, Sign, Submit PBR application using the Web application tool and to pay application fees.

Co-agent	х	х	Х	х	х	х	х	Drafter and authorized signatory
Drafter	Х	Х	Х	Х	Х			
Authorized signatory					х	х	х	

At application data level, two roles can be assigned:

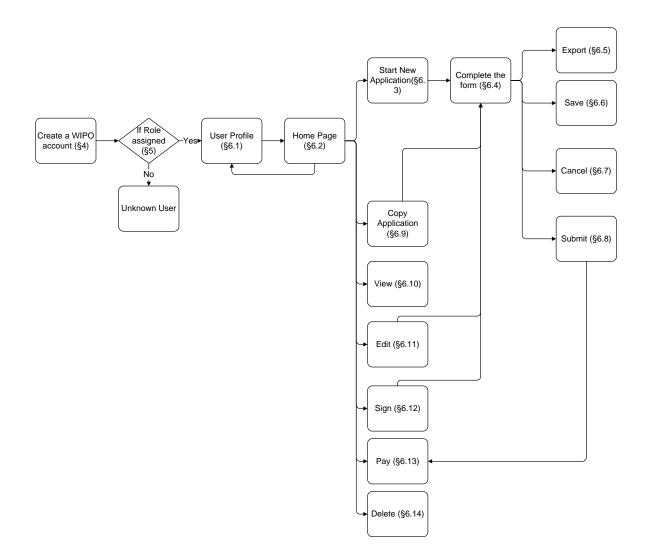

- Co-drafter: has obtained the authorization from other drafters/agents/co-agents to edit their application data. This role is set per application data by the owner of that application data. The owner is the person who started the application data. This role can also be set by the application data agent if he/she has obtained the draft permission.
- Application data signatory: has obtained the authorization from other owners to sign their application data. The drafter should be able to assign this role from a list of authorized signatories (already authorized by the agent). This role can also be set by the application data agent if he/she has obtained the "sign, pay and submit" permission.

- 3. Complete their user profile (§6.1)
- 4. Access the home page (§6.2)

From the Home page, depending on their role (see table above), the user can navigate through the different pages as described below:

4 WIPO Accounts

The World Intellectual Property Organization (WIPO) assists UPOV in financial and administrative matters (see document <u>UPOV/INF/8</u>).

The WIPO Accounts portal enables users to create and manage their WIPO user account, which is required in order to access UPOV PRISMA.

Note: Please note that the same e-mail address cannot be used with more than one user account.

4.1 Create an account

To create a user account:

1. Open the browser and enter the URL: https://www3.wipo.int/upovprisma

Note: If the Username you have entered already exists for another WIPO account user, the message 'Username is already in use' will be displayed. Please create a different Username that does not yet exist in the system.

Note: Although the address field is not compulsory, it is recommended to complete the information to avoid having to retype your address in the application form in UPOV PRISMA.

4. Enter the e-mail address to which you want UPOV PRISMA notifications to be sent in the 'E-mail' field and confirm it by typing it again in the 'Confirm e-mail' field.

Note: It is important to type your e-mail address correctly, since, in order to validate the creation of your user account, an e-mail will be sent from 'noreply@wipo.int' containing a web link that you will need to click on to validate your account. Please check your spam/junk filters if you do not receive the e-mail in your mailbox.

5. Enter a password of your choice in the 'Password' field and confirm it in the 'Confirm Password' field.

Note: The password must be at least eight characters long and must contain at least one numerical character. When choosing your password, please bear in mind that the password field in the login screen is case sensitive.

6. Enter the verification characters that appear in the text box in the Characters field below.

- 7. Once all required fields have been completed click on 'Create account'.
- 8. The 'Validate user account' screen is displayed.

6.2 Home Page

6.2.1 Header

The header includes:

- 1. <u>Welcome User</u>: specifies the username you are using for logging in ;
- 2. **English** : to select one of the supported languages;
- 3. 💾: to load the Home page from any page of UPOV PRISMA.

6.2.2 Dashboard

The "Drafter", "Authorized signatory", "Co-agent" and "Agent" are able to view the list of the applications they have started and/or submitted. In addition, the list also includes the applications for which the person is a "Co-drafter", "Application data signatory" or "Application data agent".

Applications are divided into four tabs depending on their status:

- a. Pending: includes Pending and Pending copy.
 - i. <u>Pending:</u> The application data is drafted from scratch, saved but not yet submitted;
 - ii. <u>Pending Copy</u>: The application data is drafted based on an existing application data provided for the same variety but for other authorities, saved but not yet submitted;
- b. Imported : The data is imported (by user) to UPOV PRISMA from PVP office system.
- c. <u>Submitted:</u> The application data is transferred/made available to the designated PBR authority;

d. Combined: The "combined application data" combines all the provided answers per variety as identified by the breeder's reference

The following information is displayed and could not be modified:

- International Reference Number (IRN): Identifier assigned by the UPOV PRISMA system. It follows WIPO ST.13 standard for application numbers. It identifies a variety. When the same variety is submitted for different authorities, all corresponding application data will be assigned the same IRN. However, the IRN is unique per PBR authority. Therefore, for the same PBR authority, it is not possible to get more than one application data assigned the same IRN;
- 2. Application data for: PBR or National Listing
- 3. Modified On: Date when the application data is updated;
- 4. <u>Only for "Submitted" Tab:</u> Date of Submission: Date when the application data is submitted ;
- 5. Crop: The crop to which the candidate variety belongs;
- 6. **Proposed Variety Denomination:** The denomination proposed by the submitter for the candidate variety;
- 7. **Breeder's Variety Reference:** This reference is provided by the submitter if required by the PBR authority. In this case, it is included in the application data transferred to the PBR authority. If provided, the variety breeder's reference should match the submitter's own reference;
- 8. **Submitter's Own Variety Reference:** This reference is provided by the submitter and IS NOT transferred to the PBR authority. It is used by the UPOV PRISMA system in order to identify a variety and assign a unique IRN;
- 9. PBR Authority: The PVP Office to which the application data is transferred;

10. Only for "Submitted" Tab: Applicant Payment Status :

- a. <u>NA:</u> The application data has not been submitted.
 - b. <u>Pending Applicant's Payment:</u> The application data is submitted but the payment transaction failed;
 - c. <u>Pending Payment Confirmation</u>: the application data is submitted, the payment transaction succeeded but the payment has not been received yet by the PBR authority;
 - d. <u>Received:</u> the payment is received by the PBR authority;
- 11. Action: the list of possible links depends on the person's role. It is summarized in the table below.

6.4.5.1.5 DENOMINATION

Note: In UPOV PRISMA, the breeder's reference identifies a variety. Application data for the same variety can be used with different PBR authorities with different denominations, although the same denomination should be proposed for all PBR authorities in the first instance. In order to reuse answers of existing application data for the same variety, the "combined application data" combines all the provided answers per variety as identified by the breeder's reference. For this reason, it is recommended to provide the same breeder's reference for all application data of the same variety.

1. Provide an existing breeder's reference for the same authority and crop
